HYDRA  
ESSENTIAL  
MICROPHONE

STREAMING AND GAMING

Thank you  
for purchasing  
SVIVE HYDRA ESSENTIAL  
MICROPHONE.

Please read the manual before  
use. Keep this manual handy  
for future reference.

## PACKAGE CONTENTS

- Svive Hydra Essential Microphone
- Multi-purpose microphone stand
- USB-A to USB-C cable
- Microphone table stand
- User manual

### 1. Microphone Capsules

Unique designed dual capsule circuitry, focusing on your voice or instrument while minimizing the sound of the room.

### 2. Microphone Gain/Mute

Turn the knob clockwise to increase the gain level, and counter clockwise to reduce. Press the knob to mute/unmute. When muted, the LED light turns red.

3. Headphone volume  
Turn the knob clockwise to increase the volume, and counter clockwise to reduce it.
4. Dual mode switch for Omni-directional and Cardioid  
Slide the switch to change mode.
5. Headphone Jack  
Universal 3.5mm TRS jack for voice monitoring and audio output.
6. USB Type-C  
High-speed audio data transmission.
7. Multipurpose stand  
Easy adjustment of microphone position.  
Compatible with boom arm stand.
8. Stand base  
Heavy and shock absorbing for good stability.

## SETUP WITH ANDROID DEVICES

Svive Hydra Essential Microphone supports Android 5.1 and later versions; your mobile needs to support the USB OTG function.

Connect the microphone to your device by using a cable compatible with your device. The microphone will draw power from your device and start up within a few seconds. The LED will turn green and the microphone is ready to use with apps that support external microphone for recording.

## SETUP WITH IPHONE

You need a lightning to USB cable. The cable is not included, but you may use the standard charging cable that came with the phone.

Connect the microphone to your iPhone through the lightning cable. The microphone will draw power from your iPhone and start up within a few seconds. The LED will turn green and the microphone is ready to use with apps that support external microphone for recording.

## SETUP WITH PC

Svive Hydra Essential Microphone supports Windows 7, 8 and 10; USB 2.0 and later versions.

1. Connect mic and PC using the provided USB cable.
2. From the Start Menu, select the Control Panel.
3. From the Control Panel, select the Sound icon.
4. Click the Recording tab and select Svive Hydra Essential Microphone. Set the level to 100%.
5. Click the Playback tab and select Svive Hydra Essential Microphone. Set the level to 100%.

## SETUP WITH MAC

Svive Hydra Essential Microphone supports Mac OS 10.7.5 and later versions; USB 2.0 and later versions.

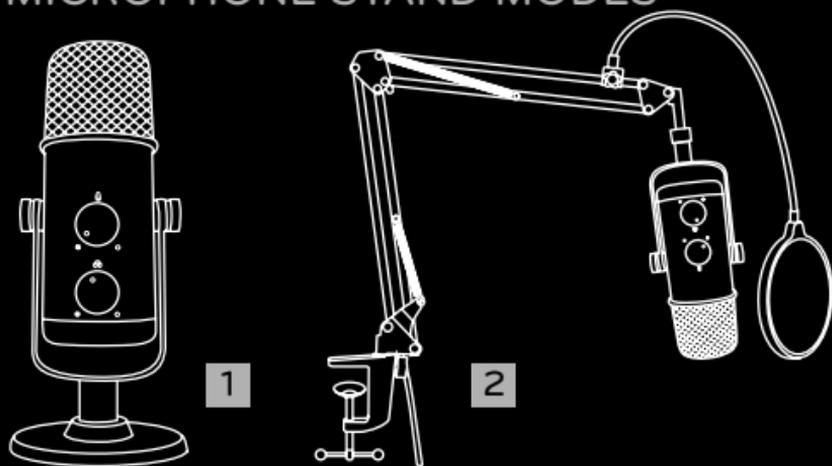

1. Connect mic and Mac using the provided USB cable.
2. Open System Preferences and select Sound.

3. Click the Input tab and select Svive Hydra Essential Microphone.
4. Click the Output tab and select Svive Hydra Essential Microphone. Set Input Volume to 100%.
5. Set Output Volume to 100%.

## SETTING MICROPHONE LEVEL

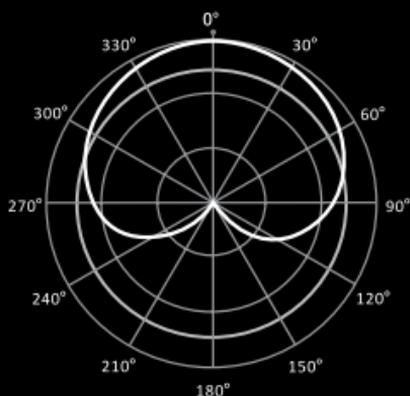

Turn the microphone Level knob counter clockwise till the end, then turn clockwise until you get a strong signal.

## MICROPHONE STAND MODES

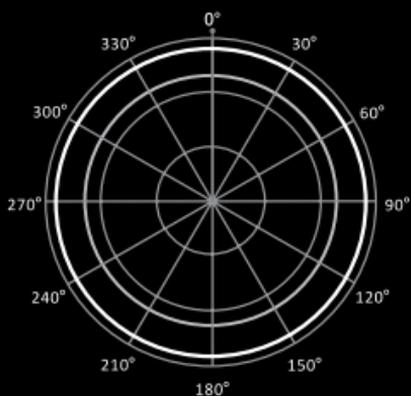

1. The included stand is for use on a table or similar plane surface.
2. Remove the base of table stand for use with microphone arm or similar accessory (not included).
